Complete Multi-Brand DVR INTEGRATION

For Axiom Product Lines

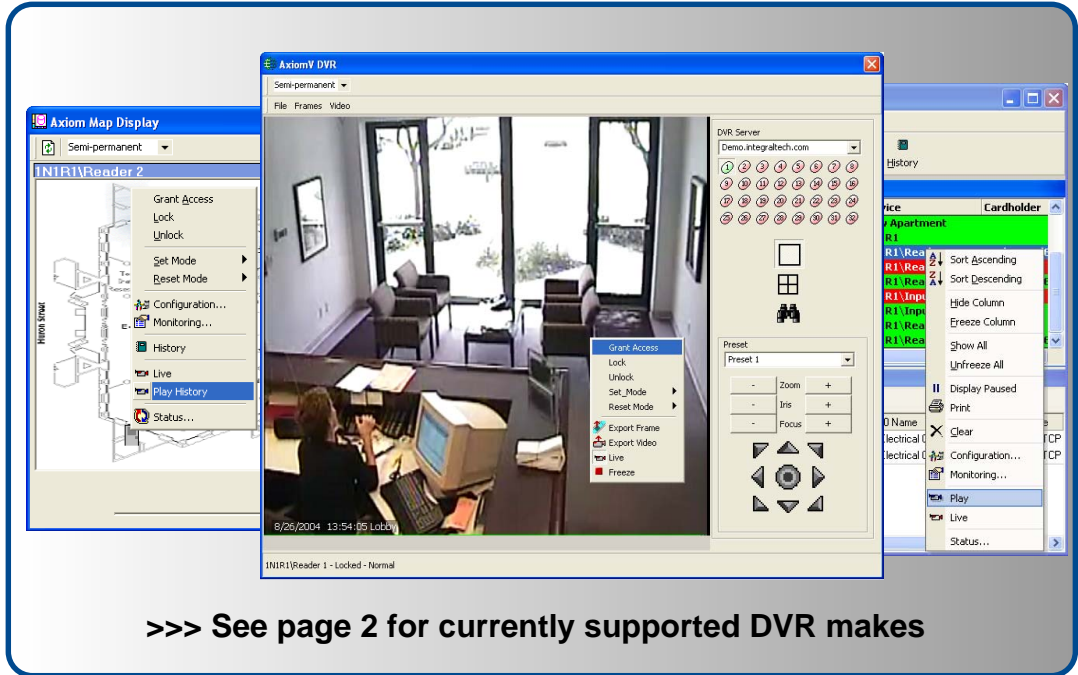

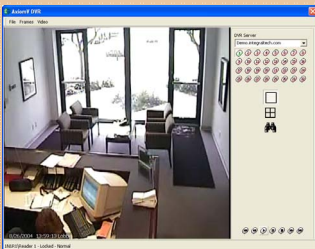

Integration capabilities of our sophisticated Access Control and Security Management Systems are further extended through an open architecture interface with a wide range of Digital Video Recorders

Supporting multiple DVR makes and models on the same system simultaneously provides enhanced flexibility and freedom of choice

Simplifying video search or allowing Access Point control directly from the live video screen, our product provides a wide range of user friendly features

Integra 32™

>>> See page 2 for currently supported DVR makes

MAIN FEATURES:

- LIVE VIDEO ON SCREEN
- PRE, POST EVENT VIEWING
- HISTORY EVENT VIEWING
- HISTORY REPORT INTEGRATION
- UNIVERSALLY ACCESSIBLE
- FULLY INTEGRATED
- MULTIPLE MAKES SUPPORTED
- CONTROL PTZ ON-SCREEN
- PTZ DOME CALL ASSIGNMENT
- TCP/IP CONNECTIONS

Over the Internet or office LAN, system user has direct system-wide access to live video, event viewing, history event based video search and video export functionality

Custom tailored assignments link individual Access and Monitoring Points to specific cameras across multiple DVRs, providing an ability to set pre- and post-alarm viewing preferences and PTZ shots

Our system provides direct access to DVR features from the System Status screen, Event Log display, Interactive Maps and History Report module

As new DVR products come to market, our open system architecture allows us to quickly provide integration with features available in these new products
